

Remember to also have a go at TTRS, Spelling Shed and Lexia (if you have it)! All links are on the class page.

Time Do you agree with Helen or Roy? Explain your answer.

Helen

I finished my book first because I read it in 150 minutes.

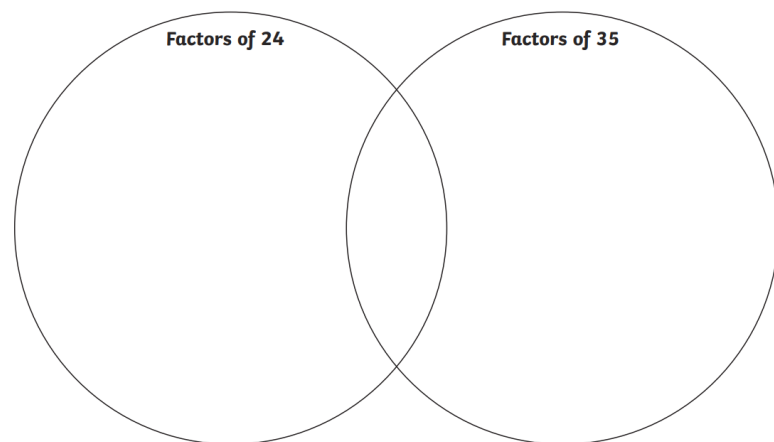

Roy

No, I finished my book first because I finished it in only $2\frac{1}{2}$ hours.

Factors

Place every number from 1 to 35 correctly in the Venn diagram.

Remember: Use your factor bugs first.

Forgotten your login? Let me know!

Reasoning

Bob is thinking of four numbers. They have a common factor of 3. They have a common factor of 1. The numbers are below 20 but above 8. What are Bob's numbers?

Multiplication

$7 \times 1 = \underline{\quad}$

$6 \times 4 = \underline{\quad}$

$8 \times 3 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$4 \times 5 = \underline{\quad}$

$12 \times 8 = \underline{\quad}$

$6 \times 7 = \underline{\quad}$

$11 \times 10 = \underline{\quad}$

$9 \times 9 = \underline{\quad}$

$1 \times 12 = \underline{\quad}$

$11 \times 2 = \underline{\quad}$

$14 \times 0 = \underline{\quad}$

$144 \div 12 = \underline{\quad}$

$14 \div 2 = \underline{\quad}$

$21 \div 7 = \underline{\quad}$

$64 \div 8 = \underline{\quad}$

$45 \div 9 = \underline{\quad}$

$4 \div 4 = \underline{\quad}$

Multiples

Place the numbers into the correct part of the table. Are there any numbers which can go in more than one column?

12, 6, 27, 4, 15,

24, 18, 25, 10, 9

Multiples of 3	Multiples of 4	Multiples of 5
