

Year 4

Homework

Addition

$4567 + 324$

$67,678 + 1357$

$0.09 + 23$

$0.012 + 2.4$

$0.03 + 0.002$

Subtraction

$78,678 - 3456$

$67.67 - 0.13$

$456.01 - 0.01$

$89.89 - 23.2$

$50.5 - 12.45$

Problem-Solving

If I save 10p every day (normal year) how much will I have at the end of the year?

A concert ticket costs £200 initially, then it is reduced by a half. What is its new price?

A Netflix subscription is increasing by £1.00 per month. If the current price is £6.00 per month, how much will I spend in total in 1 year?

If there are 300 pupils in a school, and 145 are girls. How much are boys?
