

Write four fact families for each bar model.

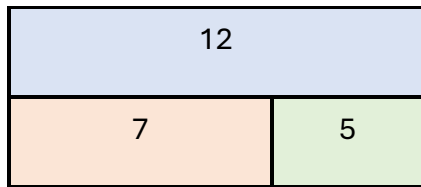

$$\square + \square = \square \quad \square - \square = \square$$

$$\square + \square = \square \quad \square - \square = \square$$

$$\square + \square = \square \quad \square - \square = \square$$

$$\square + \square = \square \quad \square - \square = \square$$

$$\square + \square = \square \quad \square - \square = \square$$

$$\square + \square = \square \quad \square - \square = \square$$

### Repeating Patterns

Can you continue the two repeating patterns?

Jo is working out the missing number.

$$5 + \square = 11$$

The answer is 16

What mistake has Jo made?  
What is the missing number?
