Partition this number in two different ways

What is a 5 sided shape called?

2 less	2 more
17	
4	
26	
30	
42	
76	
39	

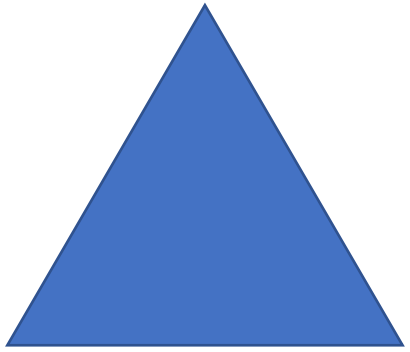

half past _____

quarter to _____

What are the properties of a triangle, (what do you know about it)?

2 x 3 =

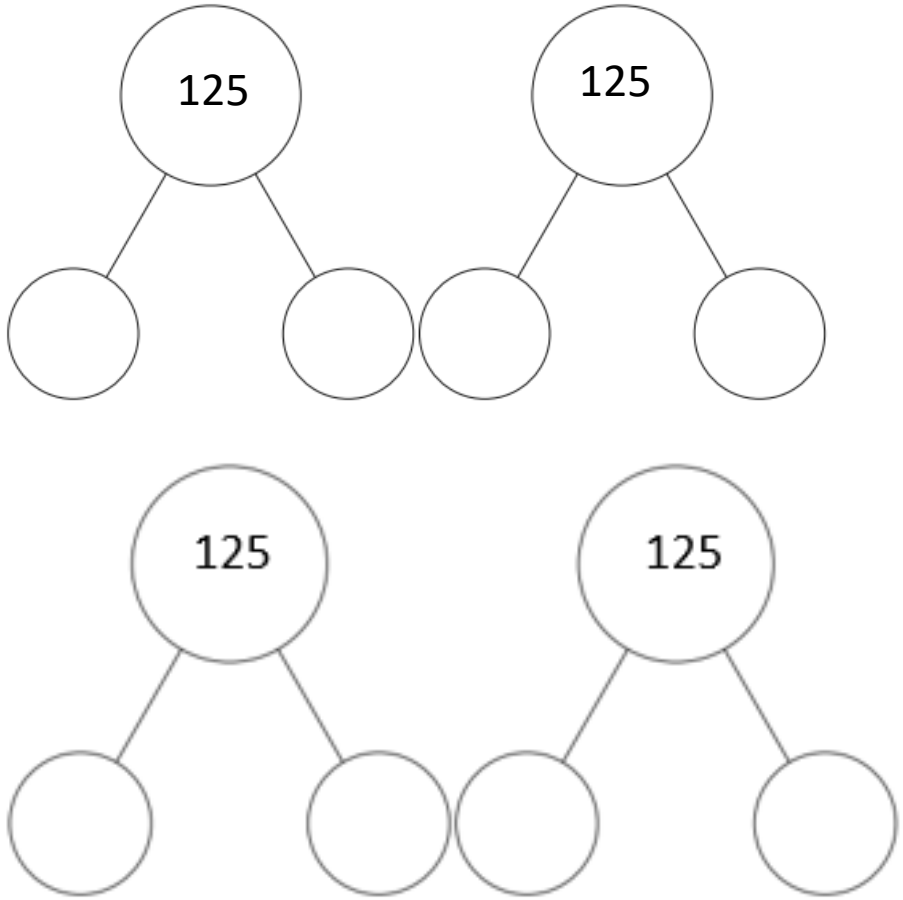

5 x 7 =

10 x 4 =

3 x 5 =

2 x 9 =

Partition this number in 4 different ways (you can add more parts if you would like).

What 2D shapes do you know?

What are their properties (what do you know about them)?

10 less	10 more
34	
90	
32
