

Hi! I'm counting in hundreds today.
Please help me to work out the totals.

1.

There are 100 beads in each jar. There are jars of beads.

How many beads are there altogether? There are beads altogether.

Now write the number in words:

Try writing these in numbers:

1. Three hundred and fifty-four.

Write down number bonds to 20.
e.g. $10 + 10 = 20$

What number is represented in the place value grid?

Hundreds	Tens	Ones
● ● ●	● ● ● ● ● ● ●	● ● ● ● ● ● ● ● ●

Match the calculation to the array?

1.

4×3

7×3

6×3

There are 17 apples in a box. I have 5 boxes. How many apples altogether?

Bob had 100 apples. How many more does he have?

a.					b.					c.				
	5	8	1			6	7	2			7	6	0	
+	2	3	8		-	3	3	9		-	3	2	5	

Continue counting in 50's
0, 50,

Draw a hexagon.

1)					2)					3)					4)				
		2	4				1	8				2	6				1	2	
	x		4			x		5			x		3			x		5	
5)					6)					7)					8)				
		4	8				3	1				4	1				4	4	
	x		2			x		7			x		9			x		7	

How many sides?
How many corners?
Is it a quadrilateral?

Lunch starts at 12 o'clock and finishes at quarter past one. How long does lunch last?
